

# SystemOne – Enhanced Services Training

NWL Primary Care System Training Team  
NHS North West London

# Retrieving a Test (T) Patient

## Option 1

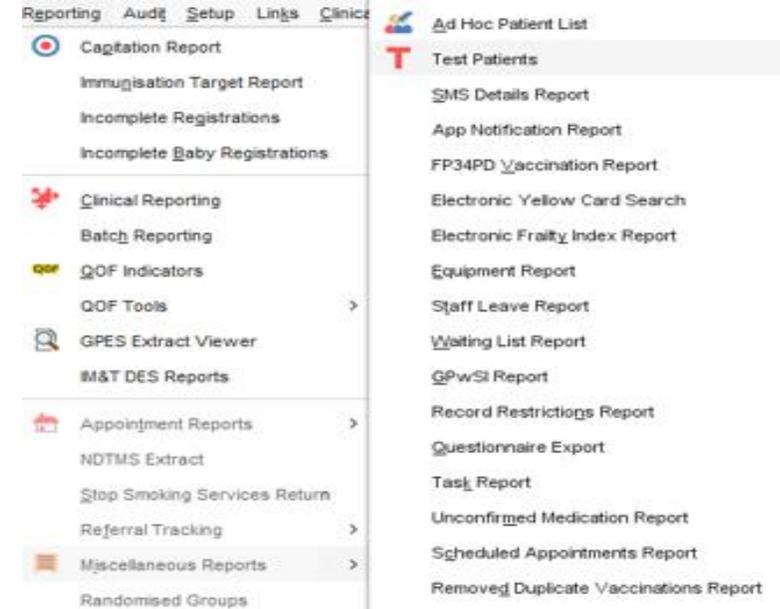

- Within the SystmOne **Home** screen.
- Bottom left of the screen is **Search Features** dialog box.
- Type **Test**.
- A **red T** with Test Patients beside it will appear.
- **Double Click** on the **Red T**.
- A list of Test Patients for the organisation will appear in Orange.

- 24 Public Health Contracts >

- 31 NWL ES Referral Out Template
- ABPM
- Ankle Brachial Pressure Index (Ealing Standard)
- Asthma
- Asylum Seeker Health Screening
- Atrial Fibrillation
- Case Finding, Care Planning & Care Management
- Chronic Kidney Disease
- CMDU
- Coil Fitting for Non-Contraception
- COPD
- Dementia
- Diabetes Early Onset / T2DAY
- Diabetes Group Consultation
- Diabetes Level 1
- Diabetes Level 2 - Insulin/Injectable Initiation
- Diabetes MDT
- Diabetes REWIND
- Domestic Abuse (Ealing Standard)
- ECG

The Enhanced Service Templates can be found under Auto Consultation > 21 NWL Enhanced Services.

They can also be found under the specific headers i.e. 07 Cardiovascular which includes ABPM, Atrial Fibrillation and ECG.

Please ensure that they have the orange square ■ beside the name of the service to ensure you have the correct template.

# All NWL ES Templates – Design Format

- **Enhanced Service Titles:** All templates have the headers on the first page/tab.
- **Tabs:** The majority of templates have several pages. These can be jumped to by using the tabs at the top of the template. If some tabs are hidden by the width of the page (i.e. mental health template) then click on the > or < on the right side of the tab line to see the other tabs.
- **Highlighted blue** areas mean they are Minimum Data Set (MDS) or KPI items which you need to complete for payment in most areas. We will comment on any blue areas that are slightly different.
- **MDS/KPI:** You will find the MDS (Minimum Data Set) (KPI's) for each Service either on the disclaimer page or a page near the end of the tabs.
- **Side Bar:** Handy links whilst in the template. Hover over the icon for information regarding the link. Click on the icon to take you to that link.
- **Information:** Click on the [i](#) in the template for more information.
- **Save:** Don't forget to save your patient after completing the template.
- **Patient Status Alerts:** Status Alerts are connected to the Data Quality Reports. If your templates are incomplete, then it will show on the patient Home Page. The status alert will tell you what is missing and if you click on action, this should take you straight to the appropriate template to complete the missing part of the MDS or KPI.
- **Contact the Team:** The disclaimer page also states how to contact the team if you have a query or feedback regarding the template.

Oxygen Home Supply Referrals Virtual or Ward Admissions Patient Resources Clinician Resources Contract Disclaimer

**NHS**  
North West London

**Disclaimer**

This template has been created by the North West London ICB to support Member Practices' effective delivery of patient services. It has been developed in close liaison with local clinicians, tested extensively within live clinical system environments and is, to the best of our knowledge, accurate. However, responsibility for ensuring the accuracy of the data produced using this template remains with the Practice; the ICB strongly recommend that Practices ensure appropriate checks are in place and that any errors are reported to the NWL IT Team by emailing [nhsnw.service@nhs.net](mailto:nhsnw.service@nhs.net)

Your template feedback is important to us. Please email your comments/requests to the address above and they will be addressed at the next review date (sooner if need dictates).

**Purpose**

The purpose of this template is to provide a single point to record relevant codes for the Respiratory ES contract, view useful resources and link out to related sub-templates within SystemOne.

**Amendments**

Last updated 2025/26 ES

**Developed by**  
Developed by NWL PCS System Development team, with guidance from NWL Respiratory programme clinical leads
